Full line of mustaches and masks for Hallowe'en.

KENNEDY DRUG COMPANY

CANADA'S LARGEST ENGINEERING PROJECT

Hydro-Electric Power Commission Carrying on Wonderful Power Development Work at Niagara Falls—A Second Panama Canal

Operating the largest shovels in the world, and reversing the flow of a river, the Hydro Electric Power Commission of Ontario is carrying on an enormous engineering project at Niagara Falls, practically without the use of steam.

There are many startling phases to this work, which is the largest engineering feat attempted in the Dominion of Canada, and the biggest engineering job at present being carried on in the North American continent.

In order to get water to the new power house which will be erected just above Queenston, the Commission will utilize four and a quarter miles of the Welland River,

men present a striking picture. The weary householder painfully feeding the furnace, shovel by shovel, from the ton or two of coal, his winter's supply, will marvel at the anomaly of the electric shovels which pick up from eight to ten tons of material, lift it 70 feet into the air and deposit it into waiting cars all within the short space of 40 seconds.

Trains, hauled by electric locomotives, convey the mud and clay to the dump at St. David's. The boulders and rock from the canal are borne away to the stone crusher on the cliff above Queenston, and converted into material for roadways, railroad roadbed, and riprap which will line the shores of the canal.

HYDRO ELECTRIC DEVELOPMENT WORK AT NIAGARA

causing this sluggish stream to flow backward and to take water from the Niagara River instead of emptying into it above the Falls. Connecting with the Welland River is a power canal, stretching from Queenston and encircling the city of Niagara Falls, Ont. which will be eight and a quarter miles long when completed.

The original survey for the Niagara development was made in 1914, and the construction work began in May, 1917. The commission expects to have the new plant in working order in 1922. War conditions handicapped the engineers, but this year's operations were begun on a grand scale. A trip over the right of way will impress the observer with the vast scope of the undertaking which, in its completed state, will cost approximately \$27,000,000.

Two miles above the brink of Niagara Falls a steam dredge is gnawing away at the channel of the Welland River, removing in generous chunks the river bottom and a portion of Hog Island, which guards the entrance to this historic creek. The lone dredge and its attendant tugs are the only pieces of equipment engaged on the entire Niagara development which are not owned by the Hydro-Electric Power Commission. They, with six or seven switch engines, are the only apparatus in use on the development which require steam in their operation.

Five the drive employed on the rock deposits of the canal right of way are operated by air, electrically compressed. A mile or two inland a huge clamshell swing from an aerial cableway, drops into the river and then emerges, bringing with it generous bites from the river bottom, which are deposited on the river bank at the foot of the tower from where the operator directs the activities of the clamshell. Deposits of earth and clay along the north bank of the river reveal the effectiveness of the clamshell in this particular portion of the development.

A short ride from Niagara Falls over new roadways built by the commission from crushed limestone removed from its right of way, brings one to the canal proper, where the activities of huge electric shovels, electric trains and gangs of

The stone crusher, which has a capacity of 4,000 cubic yards, is well worth a visit. The rocks from the excavations are cast into a trough opening into gigantic steel jaws which grind and munch, breaking the largest pieces into smaller bits that are carried away on a belt conveyor. A series of crushers reduce the rocks to a form where they may be utilized for building purposes and stored for future use.

Fifty-five miles of railway, all electrified, and tapping five trunk lines, are required in the construction work on the development. On this railway the commission has in operation more electric locomotives than any railway system in Canada. At present 2,000 men are employed on the big job. These men are housed and fed by the commission. A warehouse, an ambulance and a hospital maintained by the commission are at the disposal of the employees in case of accident. The adoption of the newest safety devices has minimized the danger of accident on the development, and the commission has devoted a great deal of time to safety first propaganda in order to safeguard the men in its employ. About 2,500 acres, or 50 per cent. of the lands acquired by the commission for its right of way, have been converted into farms, and the produce from the farms is sold to the employees of the commission. The commission maintains its own telephone system on the development, and it has connections throughout the province. Garages, machine shops and office buildings line the right of way.

By establishing its power house at Queenston the Hydro-Electric Power Commission is enabled to take advantage of the full drop of both Niagara Falls and the Gorge, a total drop of 166 feet, affording 140 per cent. more electric power from the same amount of water. The largest electric unit in the world, 55,000 horsepower generators, will be installed in the power house, to produce electrical energy for distribution throughout the Province of Ontario.

This great work is a striking example of the big vision and initiative of Sir Adam Beck, under whose direction the commission carries on its functions. This work is one which gives the people of Ontario. Just cause for pride in achievement.

A Pimple Remover That Never Fails

Dr. Hamilton Stands Behind His Formula

Bad blood is always responsible for pimples, blackheads and humours. Pimples, eczema and boils are the common result.

I contend that to cure these ills, the liver, kidneys and bowels must receive attention.

My remedy, known as Dr. Hamilton's Pills of Mandrake and Butter-nut, invariably reaches the trouble.

For putting life into sleepy organs, for forcing out every kind of waste and foreign matter, for making health-sustaining blood, where can you find such efficiency as in Dr. Hamilton's Pills.

In a thousand cases I have demonstrated that Dr. Hamilton's Pills cure facial blemishes and skin diseases.

I look upon these pills as the best blood purifier and system builder of the age, and guarantee they will cure every complaint having its origin in a weak or debilitated blood supply.

If Dr. Hamilton's Pills will not cure that tired, run-down condition, if they will not change lack of force into energy and vim, then nothing will.

By creating an abundant supply of rich, nourishing blood they maintain that standard of health so much desired by those participating in the strenuous life we live today.

Get Dr. Hamilton's Pills and prove their merit today, 25c per box.

The Tower Of London

Inseparably Linked With Eight Centuries of British History

Where the ex-Kaiser will be housed in the Tower has not yet been decided. With its twenty-two towers and other buildings surrounding the great White Tower that rises in the centre of the eighteen acres that enclose the tower precincts, the Government will find ample accommodation for their distinguished prisoner. A more fitting place for his incarceration could hardly be chosen, for no building reflects the history of the country to the same degree as does this grey old pile on the banks of the Thames.

Its record as fortress, palace, court of justice, prison, treasury, arsenal, armory and mint are inseparably linked with eight centuries of British history. And in whatever part of the Tower the Kaiser is housed he will forcibly be reminded of the tragic justice that was meted out here to royalty and commoner alike.

By far the most pathetic of its buildings is Beauchamp Tower, with its ninety-one carvings, the work of some of England's most famous sons and daughters. This is one of the oldest parts of the Tower, for though its exterior walls have been rebuilt, the interior has remained virtually unchanged. It has three floors, each of which consists practically of one large room, and these are connected by a winding staircase. All these rooms were for the confinement of prisoners of state; the men of highest rank were incarcerated in the prison chamber on the middle floor. Here Thomas Beauchamp, Earl of Warwick, after whom the tower is named, was confined, and from whence he passed to his execution.

Except in cases where personal enmity was at work, the prisoners here were not, as a rule, ill-treated. Many of them were allowed servants to wait upon them, and a regular scale of charges, according to rank, was laid down. From an examination of these charges—which the prisoners or their friends were obliged to defray—life in the Tower must have been as expensive as in a present-day West End hotel, although it is not suggested that the comfort and accommodation were in any way equal. In Richard II's reign a duke's bill came to five marks a week; a knight got his bed and breakfast for ten shillings. Raleigh paid £208 a year for his food, equal to \$1,050 of our money. They had to furnish their cells, too,

and the goods became the property of their jailors when their owners had no further use for them. Rapacious governors and extortionate warders made capital out of the poor captives and some of their entreaties for sheets to keep them warm are harrowing in the extreme.

It is the writings on the wall here that carry the mind back to those grim and tragic days of old. Some of them touch no chord, others are pathetic in the extreme. Abbots, earls, soldiers of great renown, and men whose very crimes are now forgotten cut their names, their armorial bearings, and their sentiments on these walls. The name of "Jane" may be read today; it was the work either of young Guilford, her husband, or of his brother. They were both confined here. It was repeated in another place, but during recent alterations the second inscription was obliterated. "Thomas Talbot, 1462," is the earliest inscription, and the most recent, probably that of "John Marten," committed for high treason in 1794.

Novelists have weaved wonderful romances over some of these writings, cut by prisoners whose fates are unknown. Sir Walter Scott did so over the inscription "Peverel." This is an elaborate device; in one compartment is a cross, on which hangs a bleeding heart; in another is a figure of a skeleton; in another, a shield with heraldic arms. "A passage perilous maketh a port pleasant," is another cut by Pole, who had royal blood in his veins, for he was a grandchild of George, Duke of Clarence. "I am waiting for my liberty!" is the pathetic motto of another.

Another prisoner, T. Salmon, counts the wearisome months, weeks, days and hours of his confinement. "Close prisoner 8 months, 32 weeks, 244 days, 5,376 hours." From bitter experience some are moved to give sage advice, as Charles Bailly, who writes: "Wise men ought circumspectly to see what they do—to examine before they speak—to prove before they take in hand—to beware whose company they use, and above all things, to whom they trust." To the sentiments of which it may be imagined the Kaiser in his saner moments would say, Amen!

A Gambler With 'Death'

Scathing Denunciation of Ludendorff By a German Writer

The burden of Ludendorff's complaint in his memoirs that it was the collapse of the German people that brought about the overthrow of the German armies is fiercely resented in Germany. A writer in a German paper concludes a savage attack upon Ludendorff in these terms:

"We owe our downfall to a preponderance of the enemy's strength and numbers, which would have proved the undoing of any nation. And you yourself, Ludendorff, have contributed most towards making that downfall complete—and not the German people, who today must still suffer longer for the betrayer who forsaken them in cowardice, and throws mud at them in their greatest hour of need."

"I call you the greatest gambler with death which the world has known, because you have continued to murder, although on three different occasions you could have had peace—although you knew that we should one day be defenceless and must atone for all we had done."

"You are a man of the stamp of Wilhelm, who recognized no authority except himself and the Prussian God."

"He lies in Amerongen before his household altar and reproaches his household god for having forsaken him. And you mount upon the pinnacle of the temple in order to bear false witness for the history of the world, and lay the blame for the downfall at the door of the German people, for a downfall which was merely a matter of calculation, for 10 times 1 is 10, and not 0! For Heaven's sake do not boast that Nemesis has not yet overtaken you, and spare us the publication of your mendacious 'Memoirs.'"

In former times Sandwich Island widows had their husbands' names tattooed on their tongues.

When some people feel for the poor they never feel in their pockets.

CUTICURA HEALS RASH ON CHILD

On Body and Face, Red and Itchy. Cried For Hours. Lasted a Year.

"A rash started all over my little girl's body, and she had some on her face. It started in a simple way that was full of water, and it got red and itchy. She cried for hours. This trouble lasted a year."

"Then I started with a free sample of Cuticura Soap and Ointment. I bought more, and I used four cakes of Soap and three boxes of Ointment which healed her." (Signed) Mrs. Dora Langley, 1032 Geddes St., Verdun, Que., August 11, 1918.

The Cuticura Toilet Trio consisting of Soap, Ointment and Talcum is an indispensable adjunct of the daily toilet in maintaining skin purity and skin health.

Free sample each of Cuticura Soap, Ointment and Talcum will be sent on request. Write to J. C. Cuticura, Inc., P. O. Box 100, New York, N. Y.

Union of Maritime Provinces

Proposal to Merge New Brunswick, Nova Scotia and Prince Edward Island Into One Province

The respective governments of New Brunswick, Nova Scotia and Prince Edward Island are being asked to call a convention at an early date to consider the feasibility of uniting the three provinces into one. The request comes from the Maritime Board of Trade, which recently concluded its annual session at Moncton. The basic idea of maritime union has several times been endorsed by the board, but this is the first occasion on which a move toward definite action upon the question has been taken. Briefly, the reasons advanced in favor of union are that it would mean a large financial saving, inasmuch as three sets of governmental machinery would be replaced by one, that unnecessary duplication of activities would be ended and energy in public affairs would be concentrated, that there would be unity in support of common interests instead of the present division of effort, and that one unit would exercise more influence in national affairs than can be exerted by three smaller units working separately.

Maritime union has had the support for a number of years of a group of prominent men in the provinces, among them the Hon. J. B. M. Baxter of St. John, recently attorney-general of New Brunswick; Mr. H. J. Logan, K.C., the new president of the Maritime Board of Trade; Mr. Fred McGeer, a member of the New Brunswick Legislature; the Hon. C. W. Robinson, formerly Premier of New Brunswick and a member of the present New Brunswick Government, and several others who have been active in public life.

Report of Industrial Conference

A wide circulation of the verbatim report of the proceedings with the industrial conference held in Ottawa from September 15 to 20 is being made through the labor department. It is felt that this report and the memo of information prepared by the labor department in connection with the conference will be of substantial value in furthering the objects of the gathering.

S. O. S.

If Constipated, Bilious or Headachy, take "Cascarets"

Sick headache, biliousness, coated tongue, or sour, gassy stomach—always trace this to torpid liver; delayed, fermenting food in the bowels. Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep.

Nationalist Troops Expel Turk Officials

Possession of Konik Is of Great Strategic Importance

Constantinople.—The troops under the Nationalist leader Mustappa Kemal Pasha, who recently set up a separatist government in Asia Minor, have occupied the city of Konik, in southern Asia Minor, and expelled the authorities.

Earlier dispatches had reported the convoking of a separatist parliament by Mustappa Kemal to meet at Erzerum, the site of his government, and activities of his troops in the vicinity of Smyrna and Erzerum. The presence of his troops in sufficient strength to take possession of Konik, a city of 45,000 inhabitants and one of the most important administrative centres of Asia Minor, had not hitherto been reported in that section. Possession of this city is of great strategic importance, since it is the railroad of the railroads heading from Constantinople and from Smyrna.

Canada's Railways

There are 39,000 miles of steam railways in Canada, but if all tracks be taken into account, such as double tracks, yard tracks and sidings, there are 50,853 miles. The first railway in Canada was opened in 1836 between Laprairie on the south bank of the St. Lawrence River, nine miles above Montreal, and St. Johns, on the Richelieu River. Its length was 16 miles. That continued to be the total railway mileage until 1847; when it was increased to 34 miles.

Britain's Best Mind

Of the new British ambassador to the United States, A. G. Gardiner writes in the Toronto Daily News: "In Lord Grey we are sending to America the best mind of the nation; not a cunning mind, nor a clever mind, but a mind noble in thought, disinterested in purpose, spacious of vision, moved as only great souls can be moved by the agony of these years and inspired by the single idea of rescuing the world from the pit into which it has fallen, and it is to America that we need most to send such a messenger, such a witness of our goodwill, such an assurance of our good faith."

The noblest pursuit of woman is an honest man.

Give her BOVRIL

Bovril is one of the most precious food substances in the world. Its beneficent effects are immediate; it acts like a glass of champagne, but without the reaction which wine sometimes brings. Bovril does permanent good by building up the very fabric of the body.

To get the full benefit of Bovril, take it regularly day after day. The value of "a course of Bovril" has been scientifically demonstrated by the independent investigations of Professor Thompson.

After bringing human subjects to a constant weight on a standard diet, he added Bovril to the other food, and found the body-building powers of Bovril to be 10 to 20 times the amount taken.

Body-building Power of Bovril taken.

Bovril stands alone.

ALERT ALTARIO

By special request from our readers and by command of His Royal Highness, Ye Ed., we take pleasure in resuming this column. Many good friends thought we had been "snuffed out" but such is not the case, for tho' we do say it ourselves, there is something of the Scotch tenacity about us that "aye hands tight". After a pleasant month in Calgary we returned to Altario to find the town more alert than ever. En route we blew in to the News office to seek Mr. McCulloch about an old bone we wanted to pick with him for not sending us the towns weekly organ, but found instead, a warm welcome from Warner, the new proprietor. Finding there was an interest we had in common, in the fact that we both knew and loved the same city—Dear old London we felt at once at home.

To tell of our Calgary visit was our intention, but fear it would only interest a few personal friends—anyone caring to know of the glad time we had in the Queen city, should get a copy of the Altario Arrow

One good piece of work in this district is the grading of the roads. We hear that men have been busy everywhere on this work earning good money and doing their bit in a really practical to make our country more livable. It puzzles us why the world's certain individual here refused such a good job—especially with the long cold winter ahead, with its acute needs and high cost of fuel and food. We can imagine this man when we approach him for a donation for some worthy cause he will tell the old tale of 'no money; we will give him our honest opinion of the kind of citizen he is.

We were introduced to Mr. Senbury of the New York Herald, who has opened a printing and newspaper office in our town. His office is an interesting place to visit, and from the genial and hospitable way in which we were received, we are sure it will be the best rendezvous in town.

Congratulations to Gladys Conquest, who takes five places of honor out of a possible seven in the Collegiate sports at

Monitor FRIDAY OCTOBER 17 1919 Alberta

Note and Comment

H.S. Arkell, Live Stock Commissioner, who has recently returned from a trip to Europe where he has reviewed the live stock market situation, has expressed his views, regarding Canada's position, in the October number of The Agricultural Gazette. He states that the London agents of our Canadian packers reviewed in disappointment the orders for Canadian goods—bacon, eggs, etc.—for which they could obtain but a tenth of the product they required. The unwarranted high price of hogs in Canada during the past month is but a reflection on the reputation of Canadian bacon, as compared with American, and demonstrates the effort of our packers to maintain their connection with old established clients in the face of short supplies. Since Denmark, within a year, will again be a factor on the bacon market our only security for the future is full production and such a substantial export supply as must command recognition by its volume and quality. Short hog production is unquestionably the most dangerous policy Canada can adopt. This is true of eggs as well as bacon.

ALTARIO continued
Saskatoon.

We had a letter from Miss Inkster, our teacher, who is at home in Edmonton nursing her mother who is ill. It appears the doctors can do no more for Mrs. Inkster, and naturally the daughter feels very downhearted. We always admired the way girls spoke of their Mother—in their case the relationship was bound by the golden cord of love and devotion—a rare and beautiful thing in these modern days when young folks disparagingly call Dad the 'old man' and call their Mother by her christian name.

There is a new coal shed at the elevators.

Mr. Halliday, of Nova Scotia, is substituting in our school. We hear his strong suit is mathematics.

A large congregation listened to Rev. Amos preach on Thanks giving last Sunday. The Pastor touched the hearts of his hearers many times in his sermon on that famous Psalm, the hundredth.

The Church And Its Work

By The Rev. W. S. Wickenden.
B. A. L. Th. Rural Dean

How did the church continue

By the proclamation of the same message by the Apostles and others, and by the acceptance of that message by the hearers. "Jesus and the Resurrection" was the theme of every message and wherever it was received, believers showed their faith by coming to Baptism, and becoming partaker of the Lord's Supper, in obedience to His command; all such henceforth sought to walk in the footsteps of Christ, and so doing they lived "the life which is life indeed." They found by experience that to seek to do the will of Christ was to enjoy a satisfaction and peace which could not be found elsewhere. They were often persecuted, and many of them put to death.

Why did they not remain silent and go away to their homes out of the way of their persecutors? The answer is they could not but speak of things which they had seen and heard. Jesus Christ was a reality to them, and out of a full heart they preached Him as a living Saviour and Lord. The Church continued through the fellowship of people—whose one tie was their love for Christ, their Saviour and Master. And the Church of Christ still continues because of that same bond of fellowship.

ALTARIO continued

With the spirit of Thanks, giving fresh in our hearts, we read again with profit the beautiful lines of Whittier:

"All as God wills, who wisely heeds To give or to withhold, And knoweth more of all my needs, Than all my prayers have told."

Enough that blessings undeserved Have marked my erring track:

That whosoever my feet have swerved, His chastening turned me back.

That more and more a Providence of Love is understood Making the springs of time and sense, sweet with eternal good: That death seems but a covered way which opens into light Wherein no blinded child can stray. Beyond the Father's sight."

DO YOU SUFFER FROM EYE STRAIN ?

Twitching of eyelids, occasional spells of dizziness, mazes, constant headache, etc., are symptoms from which to judge. Our glasses quickly relieve such troubles.

MONITOR : : ALBERTA

LOCAL ITEMS

by Hoo-jah-Ka-Bibby

The day was dark and stormy the snow was flying wild, and down our main street dashed a big jack-rabbit. Always something trying to knock our town. However there's no grass yet seen on the main stem.

Tommy Watson and Clarence Purdy were recently found devouring large cartons of bird seed. And, upon investigation, it was found they were trying to develop their vocal chords. Tom sings in alfalfa hay while Clarence warbles in H flat. Those budding McCormicks are prepared to render their services at any pie social, barn dance, or would consider appearing, for One Night Only, with the ONO club.

We are mis informed that a committee composed of Messrs Jim Haynes, Mayers and West have been appointed to welcome and entertain the young ladies of the Chautauqua during their stay here.

The writer of this column is a prophet and foresees that after Nov. 15th the long dry spell will be broken, and that one Hiram Walker will soon be a frequent visitor in our midst. You are all safe then in demolishing those last few bottles you have kept so secretly these past two years.

Now divorcees noted to date at the ticket drive for Chautauqua Jim Haynes was looking kinder worried Saturday afternoon and Monday morning. Wonder why?

Everything went against the farmer this summer except the murrhines; they struggled along and increased ten fold, when along comes the frost at about picking time and nips Mr. spud. Are we downhearted? No. Blessed is he that expecteth nothing, for he shall not be disappointed.

A good deal of hunting was indulged in on Monday. Some for geese, some for ducks but mostly for the doctor.

It did not take long for our Bandmaster to discover that the local editor is full of pep and hot air so he gave him the windiest instrument in the band to play. This instrument has not been played successfully before although at one time it was thought of putting Van on it. If our identity is ever discovered we are sure to get the whole brass band to play.

The band is bound to go all right now the Doc Larder has his horn in from the country. One of the valves was bent, and wouldn't work and the tube had something stuck in it but, said Doc, that didn't make any difference. It is feared that his tune will not be in shape for the dance, but the dance will come off anyhow.

Now gently reader, we have come to the end of this weeks spasm. When we write a little joke for this column and you are the goat, we want you to get good and mad—a kick to beat the dickens. This helps the paper and makes the editor feel fine. If you don't, and still go around with a smile on, we get sore and feel that we did not gain our point, and the joke is on us.

Proportional Representation --No. 3

Having in preceding articles referred to the inequalities in representation in our public bodies which result from our present system of election, and the methods which are proposed by Proportional Representation for overcoming these inequalities, it is now proposed to cite a few examples of results achieved where P.R. has been put into practice.

In the last British elections, seven of the English universities were combined into one constituency electing two members, and the election was conducted under the P.R. method. Four candidates were nominated for the two seats. When the ballots were counted it was found that first preferences had been recorded as follows: Fisher, 959; Hobson, 366; Williams, 366; Conway, 303—a total of 1994.

With a total vote polled of 1994, and with two candidates to be elected, the necessary quota to secure election would be arrived at by dividing 1994 by three and adding one. This gives a quota of 665. Mr. Fisher, having polled 959 votes, was declared elected, and his surplus of votes over 665, namely, 294, was then distributed according to the second preferences indicated thereon. More than half, 162, fell to Conway, 88 to Hobson and 44 to Williams. The position of the candidates at the conclusion of the transfer was: Fisher, 665 (elected); Conway, 465; Hobson, 454; Williams, 416.

While one candidate was elected, not one of the other three had obtained a quota. The lowest on the poll, Williams, with 416 votes, was accordingly declared defeated, and his votes transferred. As many as 312 fell to Conway, thus bringing his total above the quota, and he was accordingly elected. Thus under P.R., a man who was at the foot of the poll on the first count was actually elected because he was a strong favorite as a second choice candidate.

An election under the Proportional

Representation system which has attracted widespread attention was the municipal election in Sligo, Ireland, whereby the first town council in the United Kingdom to be chosen by the new method was selected. In that election 24 candidates were elected, eight from each of three wards. Four groups of candidates were in the field representing the Ratepayers' Association, Sinn Féin, Labor and Independents. The following table gives a summary of the final result, and reveals the fact that each group obtained representation in the council in proportion to their voting strength:

Parties	First Preferences	Seats to be Filled	Seats Obtained
Ratepayers	823	8	8
Sinn Féin	674	7	7
Labor	432	5	5
Independents	279	4	4
Totals	2,208	24	24

It is thus shown that all groups of citizens obtained representation, and that, if allowance is made for cross voting between the wards, they obtained representation in proportion to their numbers. Further, in all cases the electors had the final word in deciding which of the nominees of the various parties should be returned. The objects of P.R. being to secure freedom of choice in voting and justice in representation, these were secured by the single transferable vote.

Prior to this election in Sligo, as in so many other places, many of the more heavily-taxed citizens found themselves out-voted. After some time, they ceased to try to obtain representation. They were compelled to be content with criticizing the work of the council from outside, and much of their criticism was justified, for, as is often the case when the constitution of the council is one-sided, the administration was not of a high order. The corporation, however, labored under difficulties. Its powers of assessment and taxation were limited. It inherited a considerable debt. Burdens imposed by the council continued to increase. Eventually the crash came. The streets were, for a time, neither swept nor swept and the street lights were not lit. As a result, there sprang into existence a vigorous Ratepayers' Association, in which many members of the hitherto unrepresented minority took a prominent part. The ratepayers challenged the action of the council in striking a rate in excess of its powers. Finally, a new municipal

character was passed, giving the corporation unlimited powers of assessment and taxation, but providing for an early election under the proportional system. The result, indicated above, shows that the ratepayers through their association candidates have now obtained fair and proportional representation on the council. Speaking of the election results, the newly-elected mayor says: "The elections recently conducted here under P.R. have given entire satisfaction to the people of Sligo, and under no circumstances would they be agreeable to go back to the old system." (Next week some objections to P.R. will be dealt with.)

Are Your Nostrils Full Of Catarrhal Discharge?

If So, It's Time You Got Wise to Catarrhosis, the One Certain Cure

By no other means can you get relief so quickly as from Catarrhosis. It's the most direct remedy—direct because you breathe it to the very spot that is irritated and full of catarrhal germs. No nasal sound-out in the Catarrhosis method. It acts instantly, clears the throat of phlegm, stops the hacking cough, relieves tight chest, removes bronchial irritation.

So healing and soothing is Catarrhosis, so full is it of curative essences that winter ill-flee before it. Carry a Catarrhosis Inhaler in your purse, in your pocket, use it to ward off your little colds before they grow big. Dollar outfit lasts two months, small size 50c, trial size 25c; all dealers or the Catarrhosis Co., Kingston, Canada.

It has been estimated by a European scientist that the commercial value of the electricity in a flash of lightning lasting one-thousandth of a second is 29 cents.

A humorist says the joke that isn't private is no laughing matter.

GUARD THE CHILDREN FROM AUTUMN COLDS

The Fall is the most severe season of the year for colds—one day is warm, the next is wet and cold, and unless the mother is on her guard the little ones are seized with colds that may last on all winter. Baby's Own Tablets are mother's best friend in preventing or banishing colds. They act as a gentle laxative, keeping the bowels and stomach free and sweet. An occasional dose will prevent colds, or if it does come on suddenly the prompt use of the Tablets will quickly relieve it. The Tablets are sold by medicine dealers, or by mail at 25 cents a box, from "Dr. Williams' Medicine Co., Brockville, Ont."

There is one good feature about breaking up housekeeping; it enables people to get rid of their old furniture.

Too Much Political Craft

Many say it can't be prevented, neither can wars or corns; but they can be cured by Putnam's Corn Extractor; it cures corns and warts without pain in twenty-four hours. Use only Putnam's, 25c at all dealers.

The Salaried Man

Bill Introduced to Remove Restrictions as to Age

London, England.—An interesting paragraph in the August number of the International Woman Suffrage News stated that the Icelandic Government has introduced a bill into the Althing for the amendment of the Constitution in such a way as to give equal political suffrage for elections in districts to all men and women of 25 years, while 35 years is to be the qualifying age for electors of both sexes for elections to the Upper House. It is considered certain that this amendment will be passed, in which case the elections will take place in the spring. Four years ago the Icelandic Women were enfranchised, subject to certain restrictions as to age, which the amendment bill now before the Althing will remove.

If it were possible to put all the land on the globe above water level in the Pacific Ocean only one-seventh of the latter would be covered.

The reprieve you think of when it is everlastingly too late to work off may save a friend.

CROWN BRAND CORN SYRUP
The Syrup for Pancakes

A golden stream of Crown Brand Corn Syrup is the most delicious touch you can give to Pancakes!

In the Kitchen, there is a constant call for Crown Brand Corn Syrup for making puddings, candies, cakes, etc.

Sad the day when you are too big to enjoy a slice of bread spread thick with Crown Brand!

Could that day ever come?

Ward it off! Grace your table daily with a generous jug of Crown Brand Corn Syrup, ready for the dozen desserts and dishes it will truly "crown".

Sold by Grocers everywhere—in 2, 5, 10, and 20 pound tins.

To Explore in Arctic New Yorker Plans Expedition to Coronation Bay in Spring

Prince Rupert, B.C.—F. Kelly, of New York, who was with Vilhjalms Stefansson in the Arctic, sailed by the steamer Princess Mary from here, en route to Dawson. Kelly plans on wintering in the north and to resume his explorations in Coronation Bay. On his last journey out from the Arctic regions Kelly came by way of Peace River and Edmonton.

Minard's Liniment for sale everywhere.

There is plenty of room at the top, but as soon as a man gets there he tries his best to occupy it all.

One dose of Miller's Worm Powders will clear the stomach and bowels of worms, so that the child will no more be troubled by their ravages. The powders are sweet to the taste, and no child will object to taking them. They are non-injurious in their composition, and while in some cases they may cause vomiting, that must not be taken as a sign that they are nauseating, but as an indication of their effective work.

"Where is the Dead Sea, Tommy?" asked the teacher.

"Don't know, ma'am," was the candid reply.

"Don't know where the Dead Sea is?" There was a scorn in teacher's voice.

"No ma'am," came the reply. "I didn't even know any of them was sick."

Disturbed sleep usually comes from some form of indigestion. Strengthen the stomach and stimulate the liver with a course of

Beecham's Pills

Largest Sale of any Medicine in the World. Sold everywhere. In boxes 25c.

Proof
"So you think you have a forgiving nature?"
"I must have. I always go back to the same dentist."

Unless worms be expelled from the system, no child can be healthy. Mother Graves' Worm Exterminator is the best medicine extant to destroy worms.

Helen: "Do you believe it is true that all the world loves a lover?"
Tom: "No, not since I had an interview with your father."

The population of the Commonwealth of Australia is officially given as 5,030,000.

PILES
Do not suffer another day with itching, bleeding, or protruding Piles. No surgical operation. Dr. Chase's Ointment will relieve you at once and as certainly cures you. See a box at dealers, or Edman, Bates & Co., Limited, Toronto. Sample box free if you mention this paper and enclose 2c. stamp to pay postage.

CHILDREN NEED HELP

Spanking doesn't cure bed-wetting—the trouble is due to weakness of the internal organs. My successful home treatment will be found helpful. Send no money but write me today for free trial treatment. My treatment is equally successful for adults, troubled with urinary difficulties.

MRS. M. SUMMERS, Box 969 Windsor, Ont.

A Labor Saving Combination

"It is the last straw that breaks the camel's back." So runs the old proverb. And it is the little extra efforts which tire you out on wash-day.

Eddy's
Indurated Fibreware
Washtubs and
Washboards

form a combination which save you much extra labor. Indurated Fibreware tubs are much easier to lift and to move about. They keep the water hot for a much longer space of time, because they do not conduct heat as metal does. They are easier to keep clean, because they are made in one piece without joint or seam, and the hard, glazed surface is impervious to liquids or odors. And they cost no more. Last longer, too. Eddy's Twin Beaver Washboard has a double rubbing surface of Indurated Fibreware which loosens the dirt quickly and saves many tiresome motions.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

For Colds, Pain, Neuralgia, Toothache, Headache, Earache, and for Rheumatism, Lumbago, Sciatica, Neuritis, take Aspirin marked with the name "Bayer" or you are not taking Aspirin at all. Accept only "Bayer Tablets of Aspirin" is an unbroken "Bayer Cross." There is only one Aspirin—"Bayer." You must say "Bayer" Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monacopolitana of Solingen. While it is well known that Aspirin means Bayer Manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

A Happy Family

BY DR. S. C. DOWERS.

A happy family is one that can sit down to the table with keen appetites and good cheer. Plenty of the out-of-doors and cleanliness, inside and outside of the body, will make for health, wealth and happiness. Your doctor will tell you that anything from a headache to the most serious illness may result from allowing food to ferment in the intestines. The first thing to do in case you feel mean, logy, dull, perhaps feverish, is to flush the liver and kidneys, drink plenty of water, and take a dose of castor oil, or, something better, made of May-apple, aloin and jalap, and long sold by almost every druggist as Dr. Pierce's Pleasant Pellets. This may save you from a fit of sickness, remove the poisons from the system and give the tissues of the body a chance to build up and resist disease.

People are realizing more and more that the kidneys, just as do the bowels, need to be flushed occasionally. The kidneys are an eliminative organ and are constantly working, separating the poisons from the blood. Uric acid backs up into the system, causing rheumatism, neuralgia, dropsy and many other serious disturbances.

This can be avoided by stimulating the kidneys to increased action, and because of its tonic effect on these organs I would advise any one to get Anuric (anti-uric-acid) which is to be had nowadays for fifty cents, at almost any drug store.

A Musical Incident
The young lady attended a con-
cert. As the violinist finished his
solo she wept loudly. "Ah!" he said,
"she is a lover of music." Rushing to
her he clasped her. "I understand,"
he said, "you have true apprecia-
tion." "Yes," she said, "you played
grand. But I wept because I neglect-
ed to remove my dog's dinner from
the stove, and I know it is ruined."

The Best Liver Pill.—The action of
the liver is easily disarranged. A sud-
den chill, undue exposure to the ele-
ments, over-indulgence in some fa-
vorite food, excess in drinking, are a
few of the causes. But whatever may
be the cause, Farnell's Vegetable
Pills can be relied upon as the best
corrective that can be taken. They
are the leading liver pills, and they
have no superiors among such pre-
parations.

She Wanted Progress
"No, sah, Ah don't neber ride on
dem things," said an old colored lady
looking in on the merry-go-round.
"Why, de other day I seen dat Ras-
tus Johnson git on an' ride as much
as a dollar's worth an' git off at the
very same place he got on at, an' I
sez to him, 'Rastus, I sez, 'you spent
yo' money, but whar yo' been?'"
—Boston Transcript.

**Laugh When People
Step On Your Feet**
Try it yourself then pass
it along to others.
—It works!

Ouch ! ! ! ! ! This kind of rough
talk will be heard less here in town if
people troubled with corns will follow
the simple advice of this Cincinnati
authority, who claims that a few drops
of a drug called frezone when applied
to a tender, itching corn stops sore-
ness at once, and soon the corn dries
up and lifts right out without pain.
He says frezone is an ether com-
pound which dries immediately and
never inflames or even irritates the
surrounding tissue or skin. A quarter
of an ounce of frezone will cost very
little at any drug store, but is suf-
ficient to remove every hard or soft
corn or callus from one's feet. Mil-
lions of American women will wel-
come this announcement since the in-
auguration of the high heels.

Which Are the Seven Seas?
That there is magic and mystery in
numbers is an ancient tale, and the
fact is confirmed by a correspondent
asking: "Which are the seven seas?"
Upon inquiry, there appears to be a
common consensus as to six of the
seven, these six being the Atlantic,
the Arctic, Antarctic, Pacific, Medi-
terranean, and Indian. And just as
the ancients, agreeing on six, were
divided upon the seventh wonder of
the world (some voting for the Pa-
lacio of Cyrus), so there is doubt as
to whether the seventh sea be the Baltic
or the North Sea.

To Dig Out

Prices Will Fall When Production Is Increased

There is only one sure way to cut down the cost of living. Prices will fall when production is increased. With larger supply of what every-
body needs to eat, drink and wear and for shelter there will be con-
current drop of cost to the consumer. At the same time there is brought about an equivalent rise in the wages of labor. To stop work is to decrease production. Having endured the war we must now begin the work of re-
pair. One little word of three letters shows the way out of the world di-
lemma. That word is "dig."—From the Philadelphia Record.

The sneer of the jealous fool is apt to proclaim the wise man's merit.

Fresh Supplies in Demand.—Where-
ever Dr. Thomas' Electric Oil has
been introduced increased supplies
have been ordered, showing that
wherever it goes this excellent Oil
impresses its power on the people.
No matter in what latitude it may be
found its potency is never impaired.
It is put up in most portable shape
in bottles, and can be carried without
fear of leakage.

She Let Him Choose

She: What an atrocious necktie! I
wouldn't trust you to select any-
thing, you have so little taste.
He (chuckling): You forget that I
selected you, my dear.
She: You think you did, but you
didn't really.

RHEUMATIC PEOPLE

Can Only Find Relief By Enriching the Blood

Rheumatism is a disorder of the
blood. It attacks people when the
blood is overcharged with acid and
impurities, thus setting up inflamma-
tion in the muscles and joints. Wet
weather or cold weather of autumn
may start the tortures of rheumatism,
but is not the cause. The cause is in
the blood and the blood only. Victims
of this malady have every reason to
fear the first dull ache in the limbs
and joints, followed by sharp pains
through the flesh and muscles; these
are the symptoms of poison in the
blood which must shortly leave the
victim painstricken and helpless.

There is only one way to cure rheu-
matism, and that is to enrich the
blood. Liniments, hot applications,
and rubbing may give temporary
ease, but cannot possibly root the
trouble out of the system. That can
only be done by the rich, red blood
which Dr. Williams' Pink Pills actu-
ally make. This new blood drives
out the poisonous acids and impuri-
ties, and the rheumatic droopiness.
If you are a sufferer from this pain-
ful malady begin curing yourself to-
day by the use of Dr. Williams' Pink
Pills, and see how soon the pains and
stiffness of the joints fade away,
leaving behind new energy and new
health.

You can get Dr. Williams' Pink
Pills from any medicine dealer or by
mail at 50 cents a box, or six boxes
for \$2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

Everyone Who Bought Canada's Victory Bonds Made Money

EVERY one of the million and a half subscribers to Canada's Victory Bonds knows that he can sell them today for more than he paid for them.

Every one who bought Canada's Victory Bonds has received 5½ per cent. interest per annum—paid twice a year.

Over half a million Canadians who bought Canada's Victory Bonds on the instalment plan saved money that they would not otherwise have saved.

The guarantee back of Canada's Victory Bonds is the same as the guarantee back of a One Dollar or a Two Dollar bill. There is this difference, however, that you get interest on the Victory Bonds and you don't on the One or Two Dollar bill.

Canada's Victory Bonds will always be accepted as security for a loan.

Banks are ready to loan money on Canada's Victory Bonds.

Canada's Victory Bonds may be turned into cash at any time.

There is no other way in which you can invest your money with such absolute security—paying such a good rate of interest.

Canada will soon give her citizens an opportunity to buy Victory Bonds 1919. It will probably be the last chance to buy Canada's Victory Bonds on such favorable terms.

Prepare to buy as many Victory Bonds this time as you now wish you had been able to buy the last time

Victory Loan 1919 "Every Dollar Spent in Canada"

Issued by Canada's Victory Loan Committee, in co-operation with the Minister of Finance of the Dominion of Canada.

Local Happenings

Jas. A. McCulloch, recently returned from overseas, paid a surprise visit to his brother, J. R. McCulloch last week-end.

Eric Farley accompanied by his cousin Mrs. R. J. Tripp and family, left on Tuesday for Calgary. Mrs. Tripp has been spending the past seven weeks with her aunt, Mrs. C. Farley. Eric figures on spending the winter at Calgary.

W. G. MacKenzie, accompanied by his wife and family, returned to Monitor on Saturday last.

With regret we state that Hugh McDonald was taken ill last Saturday, it being necessary for him to go to hospital at Consort.

W. H. Poynter left on Tuesday for Bothwell and Windsor, Ontario, on a business trip.

We hope that all the Merchants in Monitor will doll up their stores and clean their windows for Chautauqua week. It is to their advantage as well as that of the town. There is going to be a whale of a crowd and the more attractive to the eye you make your store, the more business you will do.

Several trips were made by the Committee in their cars last week in the interests of the Chautauqua. A remarkable number of tickets were disposed of, thanks we are told, being due to the efforts of two of our young maidens who accompanied them.

Don't forget that the Orchestra of the Monitor Citizens band is going to play for a dance at the hall at the close of the evening Chautauqua concert. The Band has been regularly practicing and has a splendid repertoire of music.

Will take place in Monitor on November 11th, Armistice Day. Watch this paper for further particulars.

Move to Regulate Price of Clothing

Ottawa.—Immediate and effective action to regulate clothing prices was forecasted by Commissioner Murdoch of the Commerce Board, at the conclusion of the board's investigation into clothing prices here. Col. W. H. Price, government counsel, had addressed the commissioner, calling attention to evidence which he said warranted action on the part of the board, and Commissioner Murdoch replied:

"I am firmly convinced that something should be done to reduce the price of clothing, and so far as I am concerned, as one member, I will hope to see something done promptly and effectively."

Commissioner Murdoch said he concurred in Col. Price's declaration that there had been too much profit made by some of the clothing houses whose affairs had been investigated. "And I am further of the opinion," he went on, "that there is more than net profit involved, that there is real profit to some extent hidden in certain other items referred to in a general way as overhead. I think the people of the country demand, and are entitled to, a change in the situation."

Later on the chairman suggested: "If the business houses generally that have been to some extent under investigation will co-operate with the board themselves, and at the same time co-operate with the public and in the interest of their customers, we may go some reasonable distance toward the desired end of correcting the existing situation at this time."

Col. Price, in summing up the clothing situation as revealed in the investigation here, referred to the big profits made by the manufacturers and dealers, and said to Commissioner Murdoch:

"You will notice that the cost to the consumer is, in nearly every case, nearly 100 per cent. over what it cost to produce the article."

California to Entertain King Albert

Prohibition in Norway

Despite This, Arrests for Intoxication Have Been Increasing

Christiania.—War-time prohibition, operating since December, 1916, and forbidding the sale and private importation of spirits and strong liquors has been made permanent.

Despite this prohibition, arrests for intoxication have been steadily increasing throughout the country, and in some places have been higher than before the war-time prohibition was put into effect.

Substitutes for liquor, especially denatured alcohol, are being used everywhere. Illegal distillation also is increasing, especially in the rural districts.

It is feared that France, Spain and Portugal, from which countries liquor was imported, may retaliate with a tariff on Norwegian products, such as timber and fish, thereby injuring especially the Norwegian fish trade, 60 per cent. of which goes to Portugal.

GET SLOAN'S FOR YOUR PAIN RELIEF

You don't have to rub it in to get quick, comforting Relief

Once you've tried it on that stiff joint, sore muscle, sciatic pain, rheumatic twinge, lame back, you'll find a warm, soothing relief you never thought a liniment could produce. Won't stain the skin, leaves no muss, wastes no time in applying, sure to give quick results. A large bottle means economy. Your own or any other druggist has it. Get it today. 35c, 70c, \$1.40. Nationalists Capture Konieh

Apprehension That Turkish Throne May Be In Danger

Paris.—Konieh, an important railroad centre, is in the hands of the Turkish Nationalist troops.

This city, which in the days of Roman power was known as Iconium and was the capital of the province of Lycaonia, stands in a position which virtually dominates South Asia Minor. Its capture appears to indicate that Mustapha Kemal is in control of the vast region stretching from Konieh from the southwest to Erzerum, the principal city of Turkish Armenia, a distance of 425 miles. It is said the fall of the Turkish cabinet was caused by the capture of Konieh, and there seems to be some apprehension in some quarters that the Turkish throne may be in danger.

On the other hand, French circles point out that Djemal Pasha, the newly appointed Turkish minister of war, is a political ally of Mustapha Kemal.

Great Britain began to withdraw her troops from Armenia in August, and it is probable this movement is now far advanced. France has forces in Syria, while Greece and Italy have small detachments at various points along the coast of Asia Minor.

None of these nations, however, appears to have sufficient forces to conduct a campaign in the interior of the country. Great Britain's army in Mesopotamia and in Palestine, to the east and south, seems to be too far away to menace the spread of the Turkish nationalist movement, led by Mustapha Kemal.

Steamers for Ireland

London.—The Cork Development Association has received a cablegram from Henry Ford stating that he is considering running a line of steamers to Ireland.

Concerning Shipping Supervision

Co-operation to Be Introduced in Control of Ocean Tonnage

Ottawa.—Replying to a question by J. E. Armstrong, Sir George Foster, Minister of Trade and Commerce, stated that the Dominion Government has called the Imperial Government's attention to injustices in connection with the supervision by the British Ministry of Shipping in the employment of vessels under charter by Canadian shipping interests.

In reply to another question, Sir George stated that the Canadian Government will co-operate with the Imperial Government and other overseas dominions in considering the question of the supervision and control of ocean tonnage between the different parts of the British dominions.

In reference to a report of a British royal commission in favor of government supervision in transatlantic shipping, the minister stated that this report will probably form the subject matter of consideration at the next Imperial conference.

Will Investigate Irrigation in West

Ottawa.—The agriculture committee of the commons recently gave consideration to the question of irrigation in the dry areas of the prairie provinces. During the discussion the important announcement was made by Professor J. A. Grisdale, Deputy Minister of Agriculture, that the Department of Agriculture, realizing the importance of this matter, is undertaking to carry on a thorough enquiry into the whole question, which may lead to important results.

Italy Ratifies Peace Pacts

Rome.—King Victor Emmanuel has ratified the German and Austrian treaties by decree.

The Giornale d'Italia says that each decree contains two articles, the first authorizing the government to execute the treaty fully and the second setting forth that the documents be presented to parliament to be converted into law.

Third Dose Relief! Fifth Dose! Diarrhoea Stopped.

Diarrhoea does not need to persist for any length of time until the whole system is weak and debilitated. No other disease so quickly undermines the strength and brings about a condition of prostration and very often total collapse.

Dr. Fowler's Extract of Wild Strawberry is not only prompt and effectual in checking the diarrhoea, but at the same time acts as a stimulant, strengthens the heart and braces up the whole system, and one of its principal points is that it does not leave the bowels in a constipated condition.

Mr. W. H. Arnold, Fort Qu'Appelle, Sask., writes: "A few years ago while out travelling, I had a severe attack of diarrhoea. Nothing I took seemed to do me any good. I was getting worse all the time. Hearing that Dr. Fowler's Extract of Wild Strawberry was good for diarrhoea, I went into town and procured a bottle. After the third dose I felt relief, and after I had taken the fifth dose the diarrhoea had stopped. I always keep it in the house, and would not be without it."

See that you get the original "Dr. Fowler's." It has been on the market for the past 74 years. Substitutes may endanger your health. Price 35c. Put up only by The T. Milburn Co., Limited, Toronto, Ont.

Ready to Ratify Pact

London.—Great Britain's ratification of the Peace Treaty, the Foreign Office says, awaits only the King's proclamation. All the dominions have ratified the treaty, the Australian House on September 15 and the Senate on October 15.

Increased Gratuities A Heavy Burden

For Sweeping Reform

National Women's Council Present Views on Many Subjects

Calgary.—Resolutions asking that second offences for bootlegging be punishable by jail sentences, that equal parental rights be established in the province, that widows be given greater power under the Dower Act, that a living wage be incorporated in the Factories Act, that hotels and lodging houses be licensed to bring them under police regulation, and that marriage licenses be issued only from courthouses by responsible parties and that the lists be published every day, were passed by the provincial executive of the National Council of Women, which met here recently.

"SYRUP OF FIGS"

CHILD'S LAXATIVE

Look at long! Remove poisons from little stomach, liver and bowels

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious, fruity taste. Full directions for child's dose on each bottle. Give it without fear. Mother! You must say "California."

Heavy Expenditures

Deputy Minister of Finance Submits Figures to Committee on Soldiers' Civil Re-establishment

Ottawa.—A presentation of the government's obligations in regard to the payment of perhaps \$200,000,000 re-establishment grant in addition to the burdens already to be borne, was given to the special committee on the soldiers' civil re-establishment by T. C. Boveille, deputy minister of finance. Since March 31, 1914, the public net debt has increased 580 per cent., from \$335,996,000 to an estimate for 1919-20 of \$1,950,000,000. Pensions are estimated this year at \$30,000,000; land settlement, \$25,000,000; and soldiers' civil re-establishment, \$10,000,000. Interest on the public debt has risen from \$12,093,000 in 1913-14 to \$102,762,000 this year.

War expenditures for 1919-20 were estimated at \$350,000,000 exclusive of pensions, and this year's consolidated revenue receipts were estimated at \$244,000,000.

King Albert Runs Train

Chicago.—The King of the Belgians ran the engine of his own train for ten miles. The special train on which the King and his party are travelling westward was stopped at Wauson, Ohio, while His Majesty climbed into the cab of the engine and took over the throttle from the grimy pilot. The King, who has a thorough knowledge of locomotive engineering, ran the heavy train for 10 miles without a jolt, then he stopped the engine and returned to his car.

Irish Home Rule Bill

London.—Parliamentarians say the Irish bill will be the feature of the new session of parliament, and the cabinet is now considering one drafted on lines of dominion home rule, but with suggested alterations that any county may stand out or Ulster counties be all included and have their own secretary of state.

Ottawa.—A further statement of the difficulties facing the government which make payment of \$200,000,000 or more in gratuities a difficult matter for the administration to face, was placed before the special committee on soldiers' civil re-establishment by Sir Thomas White, former minister of finance.

The former minister of finance was calling attention to the many heavy expenditures which the government was called upon to face from the forthcoming Victory Loan. Without any new debts incurred, the major portion of this loan would be taken up in bank debt and other obligations.

"Canada's financial position," he said, "while it should not be called critical, is still serious because of five years' war expenditure to call for most careful administration."

"The policy of all the nations which were belligerents will be toward retrenchment for the next few years."

In regard to the forthcoming loan, Sir Thomas said he had no misgivings. It would probably be well over-subscribed, but he could see that, from present indications, a further loan would be necessary next year. Canada had had to borrow money to finance purchases by Britain and her allies in order that Canada's own trade might not suffer.

"I do not see how it would be possible for the government to raise any such further sum as is suggested if its credit is to be maintained," said Sir Thomas. The ex-minister expressed the view that should the government decide to grant a large amount of additional aid to soldiers, the money would mostly have to be produced by domestic loans.

Bulgaria Seeks Time Extension

Paris.—The supreme council will meet to reply to the request of Bulgaria for an extension of ten days to the time granted it for presentation of its observations on the treaty handed to the Bulgarian commissioners September 19.

Ex-Kaiser Moving

Amsterdam.—The former German emperor will remove from Amerongen about December 16, and take up his residence at Doorn.

A cool, clean shave for 1/5 of a cent!

A cool, clean, satiny shave for 1/5 of a cent—think of it! At least 500 shaves are obtained from 12 AutoStrop blades, and you often get more than that.

Just a turn or two on the strop and your AutoStrop Razor is ready. After shaving, you press a little lever, put the blade under the tap, wipe it off, and it is ready for the next shave. There is no need to take the razor to pieces and assemble it again; simply leave the blade where it is from start to finish. This means time saved in the morning rush—and a razor blade that's good for about six weeks' clean, cool shaves.

Razor—Strop—12 blades—\$5

MONITOR CASH HARDWARE

A very enjoyable evening was held in the Horse Shoe School on Fri Oct. 10th when a welcome Home was given in honor of the boys who served during the war, from the Hill-nvale and Sounding Lake Districts.

Special invitation cards were sent to all men of the district by the members of the U. F. W. A.

A splendid supper was served followed by a concert and dance. Friends were noticed from Eye Hill Neutral Hills Creek Valley Consort and Monitor.

Tom Noad, and his husky gang pulled in from the west last week until the weather permits them to return to work.

E. J. Wheeler of Monitor has been appointed as a J. P. in this district.

Service as usual in the English Church next Sunday. Subject for the Sermon will be Practical Christianity "A Message For The Times" Every One Welcome.

George's fence is Rainbow-Style.

R. M. Of Stewart

Holds Council Meeting

The 6th regular meeting of the R. M. of Stewart was held at Consort on September 17 th at 2 p.m.

There were present Councilors H. Peterson, R. J. Shannon R. C. Bowman and T. Partridge

The minutes of the last meeting were read and adopted.

A stock by-law received its first reading and was passed by the council.

The main object of this by-law is to prevent outsiders from bringing herds of cattle into the municipality and running them at large.

It will be definitely settled at the next meeting at Monitor on the 17th of October, as to what action will be taken regarding Seed grain advances. Any borrower who cannot pay his seed grain advance should attend this meeting.
